SF CHEN BROTHERS

International top car mat (OEM/ODM) professional manufacturer

Professional

Since its establishment in 1987, Singform has been serving global automobile company for more than half a century. We have an experienced R&D technical team and a high-efficiency management department.

Global

Singform Taiwan headquarters mainly produces plastic pellets, original car mats, commercial floor mats, waterproof membranes, PVC waterstops and other related products. It is also a research and development and experimental center.

Energy

In order to provide a more comprehensive product line service, we set up a branch in Suzhou, China. In addition to the main production of car mats, a rubber production line is specially established to manufacture rubber floor mats related products. Combined with China's manufacturing energy, diversification and expansion of production lines can better meet the needs of customers.

New factory in Taiwan
